

**⚠ Installation Precautions:**

1. Remember to perform a test by connecting the wires to the power supply before installing the fixture to the ceiling. If there are any problems, please contact us before performing the installation process.
2. The electricity must be powered off before installation or cleaning.
3. Please wear gloves during the installation process to avoid scratches.

1

**NOTE:** Perform a test by connecting the wires to the power supply before installing the fixture on the ceiling. If the fixture does not work, do not install it and contact us immediately.

2

Remove the mounting bracket by loosening the screws on the sides and take out the accessories for later use.

3

Unscrew the screws as shown in the figure, but do not fully remove them.

Place the crystal and tighten all side screws.

Repeat for all crystals.

4

Fix the hanging bracket on the ceiling with screws and tighten it with a screwdriver.

5

Connect the light fixture wires to the main power lines.
